#### **OUTPUT 3**

# **✓** Prompt: Product Comparison Document (2–3 Pages)

I have already received a Personal Product Buying Playbook from ChatGPT, which includes detailed insights on the market, customer needs, evaluation criteria, and trending products in 2025 India.

Now, based on the information in that Playbook, create a **Product Comparison Document** that will help me decide between **3 shortlisted personal products**. The comparison should be concise, decision-focused, and presented professionally across **2–3 pages**.

## **Deliverable Requirements:**

- Format the output as a structured document (for PDF or presentation export).
- Include tables, bullet points, or structured sections for readability.

## Structure of the Product Comparison Document:

- 1. Title Page (Optional if content fits in 2 pages)
  - Document Title: Product Comparison for Informed Buying Decision [Product Category Name]
  - Date
  - Prepared for: [Your Name]

### 2. Summary Section

- Purpose of this comparison
- Brief intro of the 3 shortlisted products with names & type
- One-paragraph summary of the final recommendation (highlighted or boxed)

### 3. Comparison Table

Compare the 3 products based on:

- Key Features
- Pricing (launch price/current price in India)
- Build Quality / Design
- Battery Life / Performance (if applicable)
- Warranty / Support
- Brand Reputation
- Additional Noteworthy Points

#### 4. Pros & Cons Section

- Bullet points for each product listing:
  - Key Advantages
  - Drawbacks or trade-offs

### 5. Buying Decision Recommendation

- Which product is best suited for:
  - Budget Buyers
  - Feature Seekers
  - Premium Users
- o Final recommendation with reasoning
- o Call-to-action: "Based on your usage, [Product X] is most suitable because..."

## **\*** Additional Instructions (if needed):

- If data is missing from the Playbook, fill gaps using latest general insights (India 2025).
- Keep language clear and professional but reader-friendly.
- Use comparison frameworks like "Good / Better / Best" or "Budget / Balanced / Premium" if relevant.
